

Features

General Features:

- MPEG4 MULTIMEDIA DATA DECODING AND CONTENT STREAMING
- 10/100 Mbit ETHERNET OR Wi-Fi INTERFACE
- CF-CARD FOR LOCAL PLAYBACK DATA STORAGE
- STANDARD OR HIGH DEFINITION VIDEO OUTPUT

Applications:

- INFOTAINMENT
- DIGITAL SIGNAGE

- Sigma Designs chipset provides **high definition Video over IP** for digital signage and distributed video
- **Wide range of supported media formats** including but not limited to DVD-video, SVCD, MP3, AVI, and Audio HD CD
- Ability to **stream data** stored on a PC, CompactFlash card, or USB port
- **User-friendly browser interface** for easy configuration and setup
- **Password protection** for tamper-proof setup and security
- **Supports unicast and multicast setups** for increased configuration and flexibility
- Includes Windows **application for scheduling and video management**

Bring High Definition to distributed video and digital signage solutions at low cost and low power consumption with the *netCast Player HD*. The *netCast Player HD* is the latest addition to Eurotech's Video over IP product family.

With high definition capability up to 1920 x 1080 resolutions, the *netCast Player HD* is an ideal product for any digital signage application looking to leverage the power of Video over IP technology. Users have the flexibility to store and stream data either on a PC, a Compact Flash card with no limit on the size of the card, or even a USB port. This feature set, coupled with optional WiFi capability, means that the *netCast Player HD* is an extremely flexible and configurable solution for any digital signage application.

The *netCast Player HD* comes available with the *netCast Server* Windows application. The *netCast Server* is a user friendly tool for scheduling and loading media content according to a single or multiple *netCast Player HD* unit whether they are configured in unicast or multicast setups. The *netCast Player HD* and the *netCast Server* can be used as stand-alone products or configured with other products in Eurotech's *netCast* and Video over IP product family.

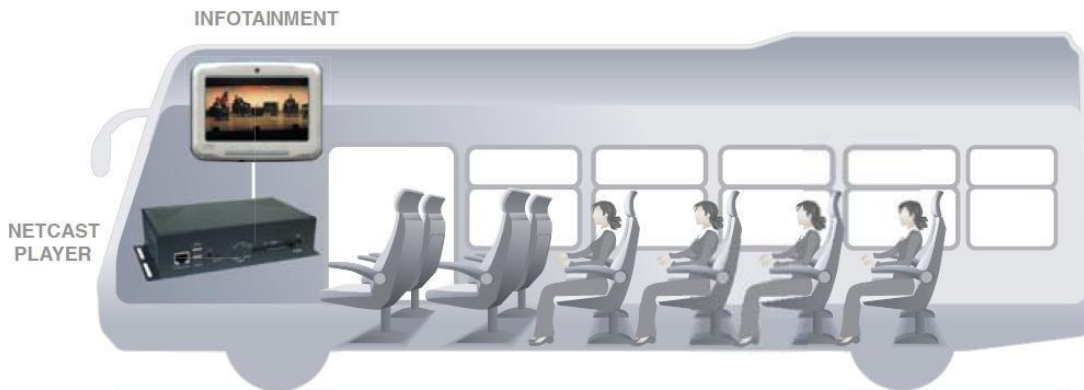

PLAYER VIP HD

Specifications

PROCESSOR	SIGMA Designs CPU @ 200 MHz
MEMORY	128 MB SDRAM
MEDIA SOURCE	10/100Mbit Ethernet CF-card slot
DECODING	JPEG decoding (hardware accelerated)
VIDEO OUT	Analog CRT, S-Video, HDMI
AUDIO	Stereo Output
I/O	10/100Mbit Ethernet; USB 1.1 host port RS-232 serial port Compact Flash (Type II) slot
WLAN	IEEE 802.11 b/g (optional)
OTHER	Browser-accessed video control
POWER	12 VDC
OPERATING TEMPERATURE	0° to +60°C (+32° to +140°F)
STORAGE TEMPERATURE	-20° to +70°C (-4° to +158°F)
HUMIDITY	20% to 80%
COMPLIANCE	CE FCC
DIMENSIONS	170x105 mm (6.7" x 4.1")
WEIGHT (APPROXIMATE)	Approx 400g

PERIPHERALS & ACCESSORIES

Power Supply 110-240Vac 50÷60 Hz input and 12VDC output
