

Eurotech: Japanese Subsidiary Advanet Obtains **€4M** Design Win For Intelligent Transportation Systems

Amaro (Italy) – February 2nd, 2012 – Advanet Inc, fully own subsidiary of Eurotech Spa, today announces a design win for embedded computers to be used within Highway Intelligent Transportation Systems to be deployed in Japan. The total sales volume is expected to be of 4 million Euro. Deliveries will begin in second half of 2012 and will be completed in about 3 years. Due to agreements with the Customer, no further details can be disclosed.

“Intelligent Transportation Systems are at the state-of-the-art in Japan and we are pleased to have been chosen by a major player in this field for such an interesting project” said Shoji Fuchigami, CEO of Advanet Inc.

About Eurotech

Eurotech is a global company (ETH.MI) that integrates hardware, software, services and expertise to deliver embedded computing platforms and sub-systems to leading OEMs, system integrators and enterprise customers for successful and efficient deployment of their products and services. Drawing on concepts of minimalist computing, Eurotech lowers power draw, minimizes physical size and reduces coding complexity to bring sensors, embedded platforms, sub-systems, ready-to-use devices and high performance computers to market, specializing in defense, transportation, industrial and medical segments. By combining domain expertise in wireless connectivity as well as communications protocols,

Eurotech architects platforms that simplify data capture, processing and transfer over unified communications networks. Our customers rely on us to simplify their access to state-of-art embedded technologies so they can focus on their core competencies. Learn more about Eurotech at www.eurotech.com.
