

Eurotech: 1.5M USD Contract to Supply Embedded Computers for Medical Application

Eurotech Sphere II Embedded Computer Powers Devices for Medical OEM Supplier

Amaro (Italy) – August 30th, 2011 – Eurotech, a leading supplier of embedded technologies, products and systems, today announces they have been selected to supply embedded computers to a medical original equipment manufacturer (OEM) that specializes in diagnostics solutions. The value of the six-month contract is about 1.5M USD.

The Eurotech Sphere II will allow the customer to meet market demand and extend the lifecycle of chemistry analyzers using ARM technology. Used to test for diseases in just minutes, these products connect to a laboratory information management system that collects all results into an electronic medical record.

“Medical OEMS can extend their product lifecycle by taking advantage of our state-of-art platforms,” said Greg Nicoloso, Chief Executive Officer of Eurotech Inc. “Eurotech offers embedded computers pre-installed with software layers that makes them application-ready platforms, allowing customers to reduce time-to-market.”

ABOUT EUROTECH

Eurotech (ETH.MI) is a global company that integrates hardware, software, services, and expertise to deliver embedded computing platforms and sub-systems to leading OEMs, system integrators and enterprise customers for successful and efficient deployment of their products and services. Drawing on concepts of minimalist computing, Eurotech lowers power draw, minimizes physical size and reduces

coding complexity to bring sensors, embedded platforms, sub-systems, ready-to-use devices and high performance computers to market, specializing in defense, security, transportation, industrial and healthcare segments. By combining domain expertise in wireless connectivity as well as communications protocols, Eurotech architects integrated solutions that simplify data capture, processing and transfer over unified communications networks. Our customers rely on us to simplify their access to state-of-art embedded technologies so they can focus on their core competencies. Learn more about Eurotech at www.eurotech.com.
