

Eurotech Receives \$4.1M Follow-On Order from Agriculture Equipment Manufacturer

Eurotech Selected for Highly Integrated, Power Efficient Embedded Platform

Amaro (Italy) – January 9, 2013 – Eurotech, a leading supplier of embedded technologies, products and systems, today announces they have received a follow-on order for \$4.1M from an agriculture equipment manufacturer for an embedded computing platform, for a total program value of nearly \$7.3M. (See press release of November 7, 2012 announcing the initial order.) No further details about the Customer can be disclosed. Deliveries of this order will take place in 2013 and 2014.

“Eurotech systems meet the needs of advanced agricultural applications, as demonstrated by two orders now totaling \$7.3M for this program,” said Greg Nicoloso, CEO of Eurotech in North America. **“Our power efficient platform combined with our expertise in harsh environments makes our embedded systems an excellent fit in demanding applications.”**

About Eurotech

Eurotech (ETH:IM) is a global company that integrates hardware, software, services and expertise to deliver embedded computing platforms and sub-systems to leading OEMs, system integrators and enterprise customers for successful and efficient deployment of their products and services. Drawing on concepts of minimalist computing, Eurotech lowers power draw, minimizes physical size and reduces coding complexity to bring sensors, embedded platforms, sub-systems, ready-to-use devices and high performance computers to market, specializing in defense, transportation, industrial and medical segments. By combining domain expertise in wireless connectivity as well as communications protocols, Eurotech architects platforms that simplify data capture, processing and transfer over unified communications networks. Our customers rely on us to simplify their access to state-of-art embedded

technologies so they can focus on their core competencies. Learn more about Eurotech at www.eurotech.com.
