

Eurotech: Parvus Receives \$3.3M Follow-on Order from Mercom Inc.

Amaro (Italy) – June 27th, 2013 – Parvus Corporation, a Eurotech subsidiary, announced they received a \$3.3M USD follow-on order from Mercom Inc. to supply DuraCOR 810 tactical computers that will be integrated into the OH-58D Kiowa military helicopters. Deliveries will take place within year end.

About Parvus

Parvus Corporation is a leading supplier of rugged COTS computing and IP networking subsystems for Size, Weight, and Power (SWaP) constrained military, aerospace, and homeland defense applications. **Parvus' tactical mission processors, network routers, Ethernet switches and embedded board-level** products provide highly reliable command, control, computing and communication (C4) capabilities for situational awareness and mobile data processing in airborne, ground vehicle, and naval installations.

About Eurotech

Eurotech (ETH.MI) is a global company that integrates hardware, software, services and expertise to deliver embedded computing platforms and sub-systems to leading OEMs, system integrators and enterprise customers for successful and efficient deployment of their products and services. Drawing on concepts of minimalist computing, Eurotech lowers power draw, minimizes physical size and reduces coding complexity to bring sensors, embedded platforms, sub-systems, ready-to-use devices and high performance computers to market, specializing in defense, transportation, industrial and medical segments. By combining domain expertise in wireless connectivity as well as communications protocols, Eurotech architects platforms that simplify data capture, processing and transfer over unified communications networks.
