

Eurotech: Giampietro Tecchiolli, Executive Vice President and Chief Technology Officer, resigns from all his offices.

Amaro (Italy) – November 27th, 2014 – Eurotech S.p.A. announces that Giampietro Tecchiolli, Executive Vice President of the Board of Directors of Eurotech S.p.A. and Chief Technology Officer of the Group, resigned from all his offices for personal reasons. Eurotech's President, Roberto Siagri, acknowledging the resignation and thanking Tecchiolli for the work carried out during these years, communicates that for a short period Giampietro Tecchiolli will continue to collaborate with Eurotech for an effective transition and completion of tasks previously assigned to him.

Tecchiolli started his collaboration with Eurotech in 1998 in occasion of the creation of Neuricam, at that time a subsidiary of Eurotech, a company active in the development of neural processors and vision sensors. Since 2001 he had been holding the role of CTO of the Group, under which he focused mainly on the HPC (High Performance Computer) business unit. Since 2008 he had been the Executive Vice President of Eurotech S.p.A..

Giampietro Tecchiolli holds as of today 0.54% of the share capital of Eurotech S.p.A..

Marco Carrer, currently Vice President of Software Engineering, succeeds to Tecchiolli in the role of Chief Technology Officer of Eurotech Group. Marco Carrer has a Master in Computer Science from Cornell University and a Degree in Electronic Engineering from the University of Padua. Carrer has been working in Eurotech Group since 2011, taking care of the direction and coordination of the software development activities, with particular reference to M2M/IoT platforms. Prior to joining Eurotech, Carrer worked for 13 years at Oracle in the United States, following a distinguished career and reaching the role of Senior Director of Software Development.

About Eurotech

Eurotech (ETH:IM) is a global company that integrates hardware, software and application expertise to deliver embedded computing and M2M integration platforms to leading OEMs, system integrators and enterprise customers for successful and efficient deployment of their products and services. Drawing on concepts of minimalist computing, Eurotech lowers power draw, minimizes physical size and reduces coding complexity to bring embedded sub-systems, ready-to-use devices and M2M integration platforms to market, specializing in transportation, logistics, security & surveillance, industrial and medical segments. Eurotech architects integrated solutions that simplify data capture, processing and transfer over unified communications networks. Our customers rely on us to simplify their access to cutting-edge digital technologies, so they can focus on their core competencies. Learn more about Eurotech at www.eurotech.com.
