

## Eurotech supports Ariston Thermo Group in the Internet of Things

*Eurotech M2M technology chosen to connect Ariston Thermo Group products*

Amaro, ITALY – July 15th, 2015 – Eurotech, a leading provider of software platforms for Machine-to-Machine (M2M) integration and technologies to enable Internet of Things (IoT) applications, today announced that Ariston Thermo Group, a leader in solutions for heating and water heating, has chosen Eurotech's **Everyware Cloud** as the platform for the M2M project to interconnect and remotely control its products. In this project, Eurotech provides its technologies and expertise in M2M to Ariston Thermo Group to consolidate the role of Ariston Thermo Group in the new paradigm of the Internet of Things. Given the confidentiality agreements in force, no further details can be disclosed.

*Note: although the amount ordered up to now is not considerable for Eurotech, the design-win itself has a certain importance for the company, as it demonstrates a relationship with a customer in the M2M / IoT sector, which could possibly lead to further orders. In that case, Eurotech reaffirms its commitment on timely informing the market.*

### EUROTECH

Eurotech (ETH:IM) is a global company that designs, creates and delivers full Internet of Things solutions, including services, software and hardware to leading systems integrators and enterprises large and small. With Eurotech solutions in place, clients have access to the latest open source and standardized software stacks, flexible and rugged multi-service gateways and sophisticated sensors to bring actionable data from the field into business
