Eurotech announces Comtrade Digital Services as a System Integrator for its IoT Solutions

Amaro (Italy) – March 17th, 2017 – Eurotech, a long-time leading provider of embedded systems and a global leader in Internet of Things (IoT) enablement, announces its partnership with Comtrade Digital Services, a global software engineering services and solutions company.

After a successful collaboration in the context of the Eurotech initiated Eclipse IoT projects Eclipse Kura – the open source Java/OSGi Middleware for IoT Gateways – and Eclipse Kapua – the open source IoT Cloud Platform – Eurotech and Comtrade Digital Services are extending their cooperation by making their joint expertise available to customers interested in adopting, developing, and deploying end-to-end IoT Solutions.

Eurotech Everyware IoT technology offers the proven building blocks necessary to assemble IoT solutions and applications. A broad family of Multi-service IoT Gateways, a secure enterprise-ready middleware for IoT gateways based on Eclipse Kura and and IoT integration platform provides the ready-to-use components necessary to meet the needs of IoT applications including edge computing, edge analytics, device management and data integration.

Comtrade Digital Services has developed a strong expertise at every level of the IoT solution – from sensors, microprocessors, and protocols up to the cloud. With numerous successfully implemented projects Comtrade Digital Services is a valuable contributor to the IoT community. Its latest Predictive Maintenance Platform leverages IoT data to prevent future failure in mission-critical operations. The Platform collects, aggregates and analyzes real-time data using a machine learning enabled system that triggers actions in real-time or based on predictive analysis.

Comtrade Digital Services expertise and deep knowledge of Eurotech Everyware IoT stack will make it an invaluable partner for the integration of Eurotech's technology in the design and development of customers' applications. The collaboration will provide customers' projects with a more predictable and faster time to market from the initial proof-of-concept all the way to the field deployment.

Bojan Šneberger, GM of Industry business unit at Comtrade Digital Services, commented on the partnership: "We are extremely proud to be part of the Eurotech's IoT ecosystem and to contribute with our knowledge to the open-source community around Eurotech Everyware IoT. We believe this partnership will help companies innovate faster and reduce time to market – they will stay one step ahead of the competition by leveraging the power of IoT."

"We are very excited to add another IoT Solutions Partner in our ecosystem. Comtrade expertise and intimate knowledge of Eurotech Everyware IoT stack make it a perfect partner to accelerate IoT Solutions deployments.", said Marco Carrer, Eurotech Group CTO.

About Eurotech
Eurotech is a global company (ETH:IM) that provides hardware and software solutions, together with professional services and expertise to deliver embedded computing platforms and sub-systems to leading OEMs, system integrators and enterprise customers for successful and efficient deployment of their products and services. Drawing on concepts of minimalist computing, Eurotech lowers power draw, minimizes physical size and reduces coding complexity to bring sensors, embedded platforms, sub-systems, ready-to-use devices and high performance computers to market, specializing in the defense, transportation, industrial and medical

segments. By combining domain expertise in wireless connectivity as well as communications protocols, Eurotech architects platforms that simplify data capture, processing and transfer over unified communications networks. Our customers rely on Eurotech to simplify their access to state-of-the-art embedded technologies so they can focus on their core competencies. Learn more about Eurotech at www.eurotech.com.

About Comtrade Digital Services
Comtrade Digital Services is a provider of strategic software engineering services and solutions. Through the understanding of the new roles in technology-savvy businesses, and with over 25 years of hands-on experience in numerous projects, Comtrade Digital Services enables companies across different industries to innovate faster and reinvent their business models digitally by using agile development methodologies, innovative technology and business acumen. We focus on global delivery and implementation in digital banking, mobility & travel, healthcare, logistics, public sector and telco. Comtrade Digital Services is part of Comtrade Group. It has over 1500 employees with 16 offices across the globe. For more information, see www.comtradedigital.com
