

## Eurotech Receives 2016 IoT Excellence Award

*ReliaGATE 20-26 Honored for Excellence in Innovation*

**AMARO (Italy), April 5th, 2017** – Eurotech, a leading provider of embedded systems, Machine-to-Machine (M2M) platforms and Internet of Things (IoT) solutions, announced today that ReliaGATE 20-26, has received a 2016 IoT Excellence Award presented by TMC and Crossfire Media.

The 2016 IoT Evolution IoT Excellence Award honors innovative products that support the availability of information being deduced, inferred and directly gathered from sensors, systems and anything else that is supporting better business and personal decisions.

The ReliaGATE 20-26, powered by Red Hat, is a high-performance, globally certified, Multi-service IoT Gateway for industrial and lightly rugged applications. It comes with a rich and powerful IoT software stack, optimized and validated for the underlying gateway hardware. It has Red Hat Enterprise Linux installed, together with the Everyware Software Framework (ESF), a commercial enterprise-ready edition of Eclipse Kura, the open source Java/OSGi middleware for IoT gateways. ESF's capabilities are further extended with Red Hat JBoss Fuse, adding powerful modular integration capabilities at the edge of the IoT infrastructure. The gateway will also be able to leverage Red Hat JBoss BRMS to implement dynamically programmable business logic and rules at the edge. Distributed and supported by Eurotech, ESF adds advanced security, diagnostics, provisioning, remote access and full integration with Everyware Cloud (EC), Eurotech's IoT Integration Platform.

"We are proud that the ReliaGATE 20-26 powered by Red Hat is been recognized as one of the most innovative products within the IoT industry" commented Giuseppe Surace, Eurotech's Chief Product and Marketing Officer "This reflects our constant commitment in the designing and delivering of IoT products that raise the bar of innovation"

"It is my pleasure to recognize ReliaGATE 20-26 with an IoT Excellence Award for its excellence in innovation," said Carl Ford, CEO & Community Developer, Crossfire Media. "As a leader in this rapidly evolving industry, I look forward to seeing Eurotech's future successes."

### About Eurotech

Eurotech (ETH:IM) is a global company that designs, creates and delivers full Internet of Things solutions, including services, software and hardware to leading systems integrators and enterprises large and small. With Eurotech solutions in place, clients have access to the latest open source and standardized software stacks, flexible and rugged Multi-service IoT Gateways and sophisticated sensors to bring actionable data from the field into business operations. Working with world-class ecosystem partners, Eurotech delivers on the promise of the Internet of Things either from end to end, or with best in class building blocks, including device and data management, connectivity and communication platform, intelligent edge devices and smart objects following business models that fit today's business world.
