Eurotech announces a technological partnership with Techedge to strengthen Industry 4.0 offer

Amaro (Italy) – May 18th, 2017 – Eurotech, a leader supplier of embedded systems, Machine-to-Machine (M2M) platforms and IoT solutions, announces today a Technological Partnership with Techedge, specialized in IT solutions for managing and improving business processes.

The technology partnership between the two leading companies allows customers to integrate innovations throughout the factory process. The integration of sensors and Edge computing solutions - often through the retrofit of existing machines - the data collection from production lines, remote maintenance, real-time monitoring and predictive maintenance, are some of the benefits that come from the adoption of Industry 4.0.

Eurotech quote:

"Thanks to this Partnership we are able to offer our customers a complete solution and, confident about Techedge expertise in managing business processes, we are able to offer the right solutions to all organizations that are looking with interest at digitalization" says Tiziano Modotti, Sales Manager SEMEA for IoT Products and Solutions at Eurotech S.p.A..

Techedge quote:

"Being able to face today's complex connected manufacturing and Industry 4.0 projects requires System Integrator to provide greater technology coverage and competences on processes related to Operational Technology; we have chosen to team with Eurotech because, working together, we have found a partner with the same customer focus and with the right level of complementarity with our offer" says Gianni Pelizzo, Corporate Director Industry 4.0 of Techedge.

About Eurotech
