

Eurotech Receives The “IoT Infrastructure of the Year” Award along with The Technological Partner Red Hat

Amaro (Italy) – May 22nd 2017 – Eurotech, a leading provider of embedded systems, Machine-to-Machine (M2M) platforms and Internet of Things (IoT) solutions, announces today to have received along with Red Hat, the world's leading provider of open source solutions, the “IoT Infrastructure of the Year” Award for the Everyware Cloud software platform.

This Award, assigned to the two technology leaders within the renowned “Big Data & IoT Excellence Award 2017”, confirms the purpose of the ongoing partnership to build an end-to-end architecture for IoT that will seek to bridge the gap between operational and information technology.

The Awards are designed by Computing from Incisive Media, to celebrate the achievements of the IT industry's best Big Data and IoT companies, solutions, products and personalities.

About Eurotech

Eurotech (ETH:IM) is a global company that designs, creates and delivers full Internet of Things solutions, including services, software and hardware to leading systems integrators and enterprises large and small. With Eurotech solutions in place, clients have access to the latest open source and standardized software stacks, flexible and rugged Multi-service IoT Gateways and sophisticated sensors to bring actionable data from the field into business operations. Working with world-class ecosystem partners, Eurotech delivers on the promise of the Internet of Things either from end to end, or with best in class building blocks, including device and data management, connectivity and communication platform, intelligent edge devices and smart objects following business models that fit today's business world.
