

## Eurotech Receives 2015 IoT Evolution Smart Machines Innovation Award

*Everyware Cloud™ IoT Platform Honored for Innovation in the Intelligent Device Market.*

AMARO (Italy), January 28th, 2016 – Eurotech, a leading provider of smart devices and Machine-to-Machine (M2M) technologies enabling Internet of Things (IoT) applications, today announced that Everyware Cloud™ has received a 2015 Smart Machines Innovation Award from IoT Evolution magazine, the leading publication covering IoT technologies.

The IoT Evolution Smart Machines Innovation Award honors products, services, platforms, and applications that are part of the intelligent device market.

Everyware Cloud™ is an innovative IoT/M2M Integration Platform that simplifies device and data management by connecting distributed devices to enterprise applications over secure and reliable cloud, and on-premises, services. Once devices are on field, the Everyware Cloud allows users to connect, configure and manage devices throughout the lifecycle, from deployment through maintenance to retirement.

The M2M / IoT Platform Everyware Cloud™ acts like an “Operating Systems for the Internet of Things”: it’s an Application Enablement Platform for the Enterprise IT world that provides on the operational technology side all the data, device and embedded application management required to deploy and maintain distributed intelligent system in the field.

“We are honored to receive this prestigious IoT award” commented Robert Andres, CMO, Eurotech Group. “Many years of experience in distributed device infrastructures have been condensed in the Eurotech IoT software solutions and we appreciate the recognition we receive from IoT Evolution magazine.”

“It is my pleasure to recognize Everyware Cloud™, an inventive solution that has earned Eurotech the 2015 IoT Evolution Smart Machines Innovation Award,” said Rich Tehrani, CEO, TMC. “I look forward to seeing more innovation from Eurotech in the future.”

### About Eurotech

Eurotech (ETH:IM) is a global company that designs, creates and delivers full Internet of Things solutions, including services, software and hardware to leading systems integrators and enterprises large and small. With Eurotech

solutions in place, clients have access to the latest open source and standardized software stacks, flexible and rugged multi-service gateways and sophisticated sensors to bring actionable data from the field into business operations. Working with world-class ecosystem partners, Eurotech delivers on the promise of the Internet of Things either from end to end, or with best in class building blocks, including device and data management, connectivity and communication platform, intelligent edge devices and smart objects following business models that fit today's business world.
