

Eurotech Receives 2016 IoT Evolution Product of the Year Award

ReliaGATE 20-25 Honored for Exceptional Innovation

Amaro, ITALY – August 5th, 2016 – Eurotech, a leading supplier of embedded technologies, products and systems, announced today that its new software-defined IoT gateway ReliaGATE 20-25 has received a 2016 IoT Evolution Product of the Year Award from IoT Evolution magazine and IoT Evolution World, the leading magazine and web site covering IoT technologies.

ReliaGATE 20-25, is a powerful IoT gateway for industrial and lightly rugged applications that offers a number of key features for industrial environments: -40 to +75°C operating temperature range; surge protected I/O interfaces; and a wide range power supply options with surge and sag protection.

Available in single, dual and quad core Intel Atom E38xx configurations with up to 4GB of soldered ECC RAM and 8GB of embedded eMMC, the ReliaGATE 20-25 also includes wireless and wired connectivity options: two Gigabit Ethernet interfaces with Modbus support; WiFi; Bluetooth Low Energy; and cellular support. The cellular connectivity is provided by ReliaCELL 10-20, a family of cellular modules pre-certified by leading carriers, so the device can run on the appropriate network with no additional certification required.

“The ReliaGATE 20-25 combines all the features the market is expecting from an IoT gateway designed for industrial applications and relatively difficult conditions” said Giuseppe Surace, Eurotech CPO. *“This product confirms our embedded computing background and long experience in supporting the industry.”*

“The solutions selected for the IoT Evolution Product of the Year Award reflect the diverse range of innovation driving the machine to machine market today. It is my honor to congratulate Eurotech for their innovative work and superior contribution to the rapidly evolving IoT industry,” said Carl Ford, CEO of Crossfire Media, a co-publisher of IoT Evolution.

“It is my pleasure to recognize ReliaGATE 20-25, an innovative solution that earned Eurotech the 2016 IoT Evolution Product of the Year Award,” said Rich Tehrani, CEO, TMC. “I look forward to seeing more innovation from Eurotech in the future.”

The winners of the 2016 IoT Evolution Product of the Year Award will be published in the next issue of IoT Evolution magazine.

About Eurotech

Eurotech is a listed global company (ETH:IM) that designs, creates and delivers full Internet of Things solutions, including services, software and hardware to leading systems integrators and enterprises large and small. With Eurotech solutions in place, clients have access to the latest open source and standardized software stacks, flexible and rugged multi-service gateways and sophisticated sensors to bring actionable data from the field into business operations. Working with world-class ecosystem partners, Eurotech delivers on the promise of the Internet of Things either from end to end, or with best in class building blocks, including device and data management, connectivity and communication platform, intelligent edge devices and smart objects following business models that fit today's business world.
