

Eurotech Receives 2014 M2M Evolution Product of the Year Award

Everyware Server Honored for Exceptional Innovation

Amaro, ITALY – July 16, 2014 – [Eurotech](#), a leading supplier of embedded technologies, products and systems, announced today that Everyware Server has received a 2014 M2M Evolution Product of the Year Award from M2M Evolution Magazine, a leading publication covering the machine-to-machine movement.

Everyware Server is a powerful M2M integration platform for on-premise deployment. By offering the proven functionality and services of Everyware Cloud, integrated with reliable server hardware, enterprises now can have high levels of data security and privacy with device and data management capabilities deployed on an appliance in their facility. Any device within the enterprise infrastructure can connect to the Everyware Server and provide near real-time inputs to business applications and systems.

The ruggedization level of the M2M platform appliance also makes the Everyware Server a perfect choice for deployment as a data aggregation system in either mobile or stationary applications, such as ships or factory floors.

“Many customers want the tools and benefits of a public cloud solution, but need to keep their data secure in their own data center,” says Robert Andres, Chief Marketing Officer, Eurotech. “Eurotech developed the Everyware Server to meet the needs of these customers in industrial, healthcare, transportation and other markets with an easy to implement, efficient and secure solution that can be seamlessly integrated into an enterprise IT infrastructure. With proven Eurotech hardware and software, customers are able to connect the world of devices in the field with their business logic to get their M2M solution up and running very quickly.”

“The solutions selected for the M2M Evolution Product of Year Awards reflect the diverse range of innovation driving the machine to machine market today. It is my honor to congratulate Eurotech for their innovative work and superior contribution to the rapidly evolving M2M industry,” said Carl Ford, CEO of Crossfire Media, a co-publisher of M2M Evolution Magazine.

“It is my pleasure to recognize Everyware Server, an innovative solution that earned Eurotech the 2014 M2M Evolution Product of the Year Award,” said Rich Tehrani, CEO, TMC. “I look forward to seeing more innovation from Eurotech in the future.”

The winners of the 2014 M2M Evolution Product of the Year Award will be published in the third quarter edition of M2M EVOLUTION MAGAZINE and on www.m2mevolution.com.

About Eurotech

Eurotech is a listed global company (ETH.MI) that integrates hardware, software, services and expertise to deliver embedded computing platforms and sub-systems to leading OEMs, system integrators and enterprise customers for successful and efficient deployment of their products and services. Drawing on concepts of minimalist computing, Eurotech lowers power draw, minimizes physical size and reduces coding complexity to bring sensors, embedded platforms, sub-systems, ready-to-use devices and high performance computers to market, specializing in defense, transportation, industrial and medical segments. By combining domain expertise in wireless connectivity as well as communications protocols, Eurotech architects platforms that simplify data capture, processing and transfer over unified communications networks. Our customers rely on us to simplify their access to state-of-the-art embedded technologies so they can focus on their core competencies. Learn more about Eurotech at www.eurotech.com.
